EXPERIENCE

Trilogy (2U), CA—*Instructional Team Member*

September 2020 - Present

My responsibilities here are to work with the rest of the instructional team to teach and empower our students to go from minimal coding experience to full stack web developers by the end of our course. We not only assist students with learning the material, but we also teach them how to learn and how to solve problems when subject material is unfamiliar to them.

Skatetown: Roseville, CA— *Supervisor*

2014 - September 2020

My responsibilities included providing outstanding Guest service, running public skate sessions in a way that is safe, fun, and efficient, and maintaining equipment essential to our success. In this job I have learned many invaluable skills and worked in just about every department. I quickly became the go-to guy for technical issues we ran into regularly.

EDUCATION

UC Davis, Sacramento Center— *Full Stack Coding Certificate*

December 2019 - June 2020

Folsom High School, Folsom— *General Education*

2008 - 2012
